Liabilities above assets last year,	16.063,57
Reduction of debt since Mar. 1st. 1893.	$1494 12

In submitting this report to the town we beg leave to call attention to the matter of raising money which must be of great importance to the taxpayers.

At the last annual school meeting there was a larger amount of money appropriated than was required, and there is now in the hands of the Town Treasurer the sum of $1981.94, and in the hands of the school District Treasurer the sum of $864.75 belonging to the school District fund. The past year has been an unusually hard one for the taxpayers of the town, and to put this unnecessary burden upon them at this time seems uncalled for. A great many people of the town have a hard struggle to pay their taxes and we think only what money is actually needed should be appropriated for any purpose.

We would also invite your attention to the financial standing of the town which you will observe is becoming more satisfactory every year. Our debt is growing smaller and our valuation larger each year. New buildings are being erected, the abandoned farms purchased by desirable people, the old buildings are then transformed or new ones built, all of which adds to the valuation of the town and helps pay the taxes.

We recommend the following appropriations for the coming year:

For breaking roads the past winter,	$1.000.00
For highways and bridges,	3000.000
For Town expenses,	2000.00
For 3 additional snow rollers,	300.00
For Custer Post G. A. R.	50.00

The above amount with the state and county tax—which will amount to about $4800.00, together with the amount required by law for schools, and our valuation at $875.000.00, which we have no doubt will be increased to that amount the coming year, our rate of taxation should not be more than $14.50 on

each $1000,00 dollars of taxable property or $1.45 on each poll.

Respectfully submitted,

HIRAM H. DOW,
JOHN E. POTTER,
WM. M. WYMAN. } Selectmen of Conway.

Selectmen's Office, Conway, N. H. Feb. 28, 1894.

We, the undersigned Auditors of the town of Conway, having examined the forgoing accounts of the Selectmen for the fiscal year of 1893, find all items properly entered upon their books under appropriate heads and sufficient vouchers on file for all orders drawn, and find the liabilties and assets to be as stated in this report. We also approve of the recommendations of the selectmen in regard to appropriations for the ensuing year of 1894 and for the reasons by them stated, which also must be apparent to every taxpayer of any considerable amount.

C. W. WILDER.
B. F. CLARK. } Auditors.

I desire to express my thanks to the taxpayers of the town for their very prompt response to my calls for taxes the past year, as it is throuh their efforts as well as my own, that I have been able to settle with the Selectmen as per my contract.

Respectfully submitted,

Isaac M. Kallock, Collector.

REPORT OF SCHOOL BOARD.

TO THE CONWAY SCHOOL DISTRICT.

The Board met early after the last Annual meeting of the District, and organized by choice of R. Henry Davis, as Chairman, Dr. S. A. Evans, as Clerk, Mr. Nash declining to serve as Treasurer, as elected by the District, the Board appointed Dr. S. A. Evans to this office, and also made him depository of School Books. It was also agreed to divide the schools into the same three Groups as last year, and the Conway Group was entrusted to the care of Dr. S. A. Evans, the Conway Center Group to J. B. Nash, and the North Conway Group to R. Henry Davis.

The schools as a whole have gone on about the same as usual.

In one of the local districts there has been no school during the year, because of a lack of scholars. The reports of each of the other schools will be found, in their appropriate place on a latter page.

We have not purchased many new books during the year, feeling that many of those in actual use had seen their best days and would see their last days if we forced them into use till the end of the year.

For this reason many of the books used must be cast aside and many new ones will have to be supplied during the coming year.

In like manner we have come short of expending all of the appropriations for some other objects.

We have given our schools a little shorter year than the last, because of a change in the law obliging us to close our accounts a fortnight earlier than heretofore, and also because we have thought it best to hold over for next year a part of our appropriation lest the hard times incline us to make so small an appropriation in March that next year's schooling would be cut too short in comparison.

Now on a somewhat less appropriation, we can still have, we hope, a year of about the same length as the present one namely 28 weeks.

We have also reserved our repair fund to such an extant, that we do not ask for any appropriation.

The money given us for the enlargement of school-house lots in East Conway and Conway Center, we have still on hand, because in the former place it is claimed that the land on which the school-house stands is private property while the District owns a lot near by—a question we have not been able to settle in the time we have had to give to the matter — and because owing to the size of the school in the latter place, obliging us to open a Primary Department, we have forseen that soon the District must provide enlarged school- room accomodations in in that village, and we would not prejudice the solution of that question and the location of the school-house by adding to the size of the present lot.

NORTH CONWAY GROUP.

Superintended by R. Henry Davis.

NORTH CONWAY VILLAGE SCHOOL.

PRIMARY DEPARTMENT.

This school has been taught very successfully throughout the year by Mrs. Caro E. Ayer of Claremont, N. H. Wages paid $9. per week. Length of the year 26 weeks, divided as follows: Spring term, 9 weeks, enrollment 39, average attendance 33; Fall term, 11 weeks enrollment 37, average attendance 29; and Winter term shortened by reason of the Grippe affecting the

teacher, 6 weeks, enrollment 30, average attendance 19.

GRAMMAR DEPARTMENT.

This school gave us much trouble last year and previously; but has shown marked improvement in studies and in conduct during the present year. Mr. John D. Ayer of Claremont, N. H., who has been a student at Dartmouth College and has had experience in teaching has served as teacher throughout the year.

As too many pilots are as dangerous as too few, in guiding a ship through a difficult passage, so it appeared to us best to entrust both of these schools which are held in the same building, to Mr. Ayer and make Mrs. Ayer his assistant.

We felt that there would be no conflict of authority, or jealousy of one another's success, between husband and wife; and that thus the two schools also work more harmoniously together no pupil in one department being able to charge a pupil in the other department with the misconduct whereof he was accused, because confident that the teacher in the other department would never hear of or investigate the accusation thus made.

We conceived also that there might be other advantages growing out of such a union of the schools.

The results of the year have fully justified our course in the employment of a gentleman and his wife to teach the two schools, and we are pleased we found just the pair that we did.

Mr. & Mrs. Ayer took an interest in their work and labored faithfully for the good of their pupils. The wages paid Mr. Ayer was $11.00 per week. Mr. Ayer made a year of 28 weeks divided as follows: Spring term, 9 weeks enrollment 53, average attendance 46; Fall term, 11 weeks, enrollment 53, average attendance 39; Winter term, 8 weeks, enrollment 50, average attendance 34.

ECHO LAKE SCHOOL.

Last year this school had a different teacher each term. This year it has been under the care of one teacher for all of the three terms. Miss Jessie A. Kimball of Hiram, Me. gave the district a good school, received $6.00 per week, and taught

a year of 26 weeks, divided as follows: Spring term, 9 weeks, enrollment 10, average attendance 9; Fall term, 13 weeks, enrollment 11, average attendance 8; Winter term, 4 weeks, enrollment 7, average attendance 4.

McMILLAN SCHOOL.

The Spring term was taught by Miss Minnie L. Anderson, of Chatham, who had taught it the Winter term of last year. Miss Mabel Dresser of Standish, Me, a graduate of the North Bridgton Academy, served as teacher of Fall and Winter terms. Both these ladies did good work, and were paid $8.00 per week, Better work will be done in this school when the new school house is provided or the school united with the North Conway Village school. A year of 28 weeks was taught, divided as follows; Spring term 9 weeks; enrollment 35, average attendance 28; Fall term, 11 weeks, enrollment 27, average attendance 22. Winter term, 8 weeks, enrollment 22, average attendance 17.

KEARSARGE SCHOOL.

This school has enjoyed the services of a single teacher throughout the year, Miss Clarinda F. Harriman, of Berlin Falls, who taught the West school one term of last year and had taught this school one term a few years since, before her graduation at the Gorham, Me. Normal School. Miss Harriman has a gentle easy way with her in the school-room and taught a good school, for which she was paid $8.00 per week.

This school collected money and purchased a national flag, which was raised with appropriate ceremonies by the school and visitors on January 23, 1894.

The year of 28 weeks was divided as follows: Spring term, 9 weeks enrollment 31, average attendance 22; Fall term, 11 weeks, enrollment 33, average attendance 19; Winter term, 8 weeks, enrollment 27, average attendance 18.

It remains to be said of this school that irregular attendance, for which parents are to blame, hinders its success.

INTERVALE SCHOOL.

Miss Katherine S. Osgood of our town, who has taught one or another of our schools for several terms, taught this school for the Spring term, of 9 weeks, with an enrollment of 12 pupils and an average attendance of 9; Wages paid $6. per week.

No further school was given to this village, for lack of a suitable room. The room we had used, was taken from us to be used as a Post-Office. So we sent the pupils to the Kearsarge and North Conway Village Schools. It was a little far for some of them to go but was the best we could do under the circumstances.

REDSTONE SCHOOL.

Miss Grace Page of East Conway, who taught the Green Hill school last year, taught this school thoroughout the year.

We were obliged to rent a school-room in a building of the Maine and N. H. Granite Co., the entire year. But the new and very convenient school-house voted last March, approaches completion and will be ready for use next year. It is expected that this school will be even larger next year by reason of more general attendance. Some have neglected school this year because of the inconvenient room, the difficulty of warming it, and for other good reasons. It is a bright and interesting school to teach, made up as it is of Yankee and other children-

We have paid Miss Page, $7.00 per week, who taught 28 weeks, divided as follows: Spring term 9 weeks, enrollment 29, average attendance 24; Fall term, 11 weeks, enrollment 33, average attendance 28; Winter term, 8 weeks enrollment 20, average attendance 16.

CONWAY CENTRE GROUP.

By John B. Nash.

DIST. NO. 4.—GRAMMAR SCHOOL.

Summer term of 10 weeks taught by Mr. Fred G. Kneeland, of Bridgton, Me. Whole number of pupils registered 42. Average attendance, 29. Wages per week, $10. The school was fairly successful.

The Fall term of 9 weeks was taught by Mr. George B. Cam-

eron, of Conway. Length of term, nine weeks. Whole number of pupils registered 35. Average attendance 28. Wages per week $10.

Mr. Cameron is a teacher of experience. His methods of instruction were good. The advancement especially in mathematics was excellent.

The Winter term of 11 weeks was taught by Mr. John F. Tracy, of Bridgton, Me. Whole number of pupils registered 39. Average attendance 32. Wages per week including care of School House and building fires, $10.

Mr. Tracy is a very able teacher of long experience. The Term was highly successful.

Owing to the crowded condition of the school in this Dist. and the large number of very small pupils, the Board decided to start a primary school in the Dist. and with the consent of the selectmen, a summer and fall term was taught in the Town House. As that was not a suitable place for a winter term and we could find no other place, we concluded to have no primary term in the winter, but we continued the grammar school two weeks longer than the other grammar schools in town, but this did not give to Dist. No. 4 its full proportion of the school money.

DISTRICT NO. 1.

Summer term of 10 weeks taught by Miss Marion B. Shirly, of Conway. Whole number of pupils registered 19. Average attendance 14. Wages of teacher per week, $6.

The Fall term of 10 weeks taught by same teacher. Whole number of pupils registered 18 Average attendance 12. Wages of teacher per week, $6.

The work done by Miss Shirly in this school was entirely satisfactory. We intended to have had a winter term of five or six weeks in this district, but as we could not procure the services of Miss Shirly we decided not to start so short a term with any other teacher but deem it better to start a spring term earlier than usual, so as to give the pupils of the District their just propotion of schooling.

DIST. NO. 4.—PRIMARY SCHOOL.

Summer term of 10 weeks taught by Mattie Smith of Conway.

Whole number of pupils registered 25. Average attendance, 18. Wages of teacher per week $6.

Fall term of 10 weeks taught by the same teacher. Whole number of pupils registered 20. Average attendance 16. Wages of teacher per week, $6.

This teacher was without experience but she did fair work.

DIST. NO. 2.—THOMS SCHOOL.

Summer term 10 weeks. Teacher Miss Edith M. Bickford Whole number of pupils registered 5. Average attendance 4. Wages of teacher per week. $4.50.

The Board did not think it wise to have any school in this Dist. but the parents rather than have their pupils carried to some adjoining Dist. gave one half the cost of boarding a teacher during the summer term, but were not willing to continue the same arrangment for the fall term hence the difference in wages paid for the different terms. Miss Bickford did her duty well and faithfully, and merited the promotion she received from the School Board.

The Fall term of 10 weeks was taught by Miss Jessie Nash. Whole number of pupils registered 7. Average attendance 4. Wages of teacher per week $6.

Miss Nash had had no previous experience as a teacher but she showed a good degree of interest in her work from the start and on the whole she succeeded fairly well.

The School Board agreed to give $12 towards a private school in this district during the winter.

DIST. NO. 3.—POTTER SCHOOL.

Summer term of 8 weeks taught by Miss Edith M. Wakefield, of Conway. Whole number of pupils registered 10. Average attendance 6. Wages of teacher per week $6.

This teacher did satisfactory work.

Fall term of 10 weeks taught by Miss Blanche G. McLoy. Whole number of pupils registered 10. Average attendance 5. Wages of teacher per week $6.

Where the average daily attendance is so low as it appears in this term it is usually owing to a few pupils who are rarely present at school. Such pupils are a great drawback to our

schools. They should receive the special attention of an alert truant officer.

Miss McLoy took a good interest in her work and for a first attempt did well.

DIST. NO. 12.—GREEN HILL.

Summer term of 10 weeks taught by Florrie M. Hill, of Chatham. Whole number of pupils registered 12. Average attendance 10. Wages of teacher $6.

Fall term of 12 weeks. The same teacher. Whole number of pupils registered 13. Average attendance 12. Wages of teacher $6.

Miss Hill is a good teacher, and she taught a good school.

DIST. NO. 16.

There have been three terms of school in this district during the year, all taught by Miss Katherine E. Page, of Conway. Miss Page is a very capable teacher. There is probably no school in town that surpasses hers in the progress made by the pupils. Summer term 10 weeks. Whole number of pupils registered. Average attendance,

Fall term ten weeks. Whole number of pupils registered. Average attendance.

Winter term 5 weeks. Whole number of pupils. Average attendance. Wages of teacher per week each term, $7.

DIST. NO. 9.

In this district, which has heretofore given the School Board, a great deal of trouble, we were unable to make any satisfactory arrangment for the transportation of scholars, and there being but two pupils that it was our duty to furnish with transportation and the guardians of each of these being old school teachers we arranged with them to give these pupils instruction in their homes for the period of twenty weeks, at one dollar per week for each pupil.

CONWAY CORNER GROUP.

By S. A. Evans.

DISTRICT NO. 5.

Spring term by Miss Lottie G. Charles, who taught the two preceding terms. A good school. Length of term 10 weeks. Whole number of pupils registered 20. Average daily attendance 15. Wages $6.

Summer term by Miss Edith M. Bickford. This teacher made an honest and conscientious effort but labored under some disadvantages, for which she herself was not responsible. Notwithstanding these drawbacks, the school was fairly successful. Length of term 10 weeks. Pupils registered 22. Average attendance 11. Wages $6.00.

A Winter term was commenced by the teacher of the previous term. The attendance was so small that it was not deemed profitable to continue. Closed at the end of one week. The changes in the number of pupils, in this district, were considerable, by reason of the moving of families. Several of the scholars were from the town of Eaton.

DISTRICT NO. 6.

Spring term by Mr. Harry L. Hall. Early in the term the school showed lack of discipline. Later on, a special effort on the part of the teacher, resulted in improvement. Length of term 10 weeks. Number of scholars registered 32. Average attendance. Wages, $7.50.

Fall term was begun by Miss Edith Blaisdell. At the end of two weeks, Miss B. suddenly left to accept a more lucrative position. In the emergency, the services of Miss Kate B. Meade were secured in season to continue the school without a break. This teacher, through youth and lack of experience, suffered more or less from the rudeness and insubordination of several boys, who ought to know and do better. In fact, this has been one trouble with this school for a long time. Boys who will take advantage of the physical weakness of a young lady teacher to disobey and insult her, show a mean nature, will probably grow up to be mean men and, if they are shielded by their parents at home, it is further shown that their mean nature came to them by inheritance. This will apply to other districts besides No. 6. Length of term 12 weeks. Number reg-

istered 31. Average attendance 27. Wages $7.50.

For the Winter term, the School Board decided to secure a teacher who could govern this school and, after some delay, obtained the services of Mr. F. H. Sauborn. So far as the Board can judge from visiting the school and from numerous inquiries, Mr. S. has shown himself to be master of the situation and the school is in a fair way to become orderly, studious and respectable. Length of term 6 weeks. Number registered 26. Average attendance 23. Wages $9.00

DISTRICT NO. 13.

GRAMMAR DEPARTMENT.

Spring term by Mr. Joseph T. Shaw, who came well recommended by the Faculty of Bowdoin College. In respect to scholarship Mr. Shaw was well equipped but extreme youth, lack of experience and of dignity, were serious drawbacks to his usefulness. Length of term 9 weeks. Pupils registered 41. Average attendance 32. Wages $11.00.

Fall term by Mr. George Haley. A very satisfactory school both in discipline and instruction. Length of term 11 weeks. Number registered 44. Average attendance 36. Wages $11.

Winter term by Mr. Haley, who maintained the good character of the preceding term. Length of term 8 weeks. Number registered 31. Average attendance 26.

PRIMARY DEPARTMENT.

It was the good fortune of this school to secure the services of an excellent teacher for the entire year—Mrs. L. Jennie Hutchinson—who at first, gave the impression of unnecessary severity. Upon further acquaintance, however, it was found that beneath the surface of a somewhat censorious manner, existed a genuine interest and affection for her little pupils. She spared no effort for the good of her charge and the results were highly satisfactory. First term nine weeks. Number registered 57. Average attendance 49. Second term 11 weeks. Pupils registered 57. Average attendance 44. Third term 8 weeks.

Pupils registered 31. Average attendance 26. Wages, for the year $9.00.

The school room accommodation, in this district, is utterly inadequate for the number of scholars. Since the building of the school house, the population and taxable property of the District has well nigh doubled. In the Grammar School room, it has been necessary to crowd seats and desks into every possible corner and even to carry in chairs, which placed between the rows of desks, have served to eke out the seating capacity. At the beginning of the next year, quite a number of the primary scholars will be entitled to the privileges of the Grammar grade. How they can be accommodated does not readily appear. The room cannot be stretched to any greater size, and it is more than full now. The number of scholars is also greater than any one teacher can manage in justice to them or himself.

The taxpayers of this District do not ask as a favor increased school-room capacity. They demand it as their right and they submit that there should be no unnecessary delay in providing for the schooling for their children. The school lot is ample in size and perhaps it will be found practicable and desirable to add, to the present house, a school-room, on the plan of an ell, or of a detatcher, one-story building wherein to establish an intermediate grade. The school Board most earnestly advises that an intermediate grade be organized and that the Grammar School be thereby enabled to give the advantages, to its pupils, of instruction in some of the higher branches, such as Latin and algebra, etc.

Finally, the Board desires to speak of an impression that seems to prevail, in some quarters, that it is only necessary, in order to have a good school, to hire a good teacher. There never was a greater mistake.

To have a good school, many conditions are requisite, but three elements are indispensable—a good teacher, orderly and studious scholars and parents who will aid and sustain the

teacher and encourage the pupils to do their best. As a rule, teachers make an honest effort to do their duty; but sloth and insubordination among the scholars, or carping criticism and taking sides with refractory pupils against the teacher, by the parents, will render the labors of the best of teachers of no account.

R. Henry Davis,
J. B. Nash,
S. A. Evans,
} School Board of Conway.

S. A. Evans, Express Bill and Stationery and postage,	2 10	3973 44
Remaining in School Treasury,		864 75
		$4838 19

Appropriation for Redstone School House and Lot.

1893.

Received of Town pr. I. M. Kallock, Collector,	$1000 00

Paid to J. L. Gibson, Treasurer of Building Committee, upon Order No. 55, of the School Board,	$1000 00
1894.	
Received of Town Treasurer Balance of Appropriation and paid to Treasurer of Building Committee,	$500 00
	$1500 00

SCHOOL BOOKS AND SUPPLIES.

As the statute empowers the School Board to furnish the schools with books "at the expense of the town," no appropriation was made for that purpose at the District meeting. A vote was passed authorizing the board to expend "if necesaary" five hundred and fifty-one dollars— that being one dollar for each scholar in the District—and send the bills to the Selectmen. The selectmen preferred to have the business transacted by the School Board, which was accordingly done.

The account is as follows:

Cash received of Town Treasurer,		$184 14
Bills paid for Books as follows:		
Cash paid to Lee & Shepard,	5 00	
" " Boston School Supply Co.	16 20	
" " Thompson, Brown & Co.	5 00	
" " Wm. Ware & Co.	36 00	
" " American Book Company,	94 44	156 64
" Remaining in Treasury,		27 50
		$184 14

The foregoing accounts are respectfully submitted.

S. A. EVANS,
School Treasurer.

CONWAY, N. H., Feb. 1894.

We, the undersigned, Auditors for the town of Conway having examined the accounts of the Treasurer of the School District for the year 1893, and find them correctly kept, footed and balanced, with proper vouchers for each and every item.

C. W. WILDER,
B. F. CLARK, } Auditors.

VITAL STATISTICS

OF THE

Town of Conway,
